

Sports Premium Funding 2024–25

At our school, we are passionate about ensuring every child has the chance to enjoy physical activity, build confidence, and develop lifelong healthy habits. The PE and Sport Premium grant helps us to achieve this by funding high-quality opportunities both in school and beyond.

In 2024–25, we received **£17,090.71** in funding. This was used to strengthen our PE provision and expand the range of activities on offer.

How we spent the funding:

- **Extra-curricular opportunities** – £3,248.01 supported a variety of after-school clubs and enrichment activities.
- **Competitions** – £500 funded internal competitions and a further £500 allowed pupils to take part in inter-school events.
- **Swimming** – £2,240 provided top-up lessons and opportunities for pupils to gain vital swimming and water safety skills.
- **Active travel** – £2,100 encouraged children to be active in their daily routines.
- **Resources & platforms** – £1,167.70 was invested in new equipment, membership fees, and online learning tools.
- **External coaching** – £7,335 brought specialist coaches into school, raising the quality of lessons and widening opportunities for pupils.

Impact:

This funding has allowed us to:

- Broaden access to sports clubs, ensuring more children are active outside of lessons.
- Support pupils in developing swimming confidence and water safety skills.
- Provide children with the chance to represent the school in competitions.
- Promote sustainable healthy lifestyles through active travel initiatives.
- Enhance PE delivery through expert coaching.

We are proud that the Sports Premium continues to help us inspire pupils to enjoy sport, stay healthy, and develop resilience through physical activity.
